

## Code:

```
readFile.js

const fs = require('fs'); // Import the file system module

// Read the file named "example.txt"
fs.readFile('Example.txt', 'utf8', (err, data) => {
  if (err) {
    console.error('Error reading the file:', err);
    return;
  }
  console.log('File contents:\n', data);
});
```

## Output:

```
● amanchoudhary@Amans-MacBook-Air 4feb.js % node readFile.js
● amanchoudhary@Amans-MacBook-Air 4feb.js % node readFile.js
  File contents:
    My name is Aman Choudhary.
○ amanchoudhary@Amans-MacBook-Air 4feb.js %
```
